CES Software... about us

CES Software launched its ground breaking CES Touch Screen EPoS software in 1997 and has since grown to become a market leader in the provision of powerful, affordable and user-friendly point of sale applications. Over this time a worldwide customer base has been built covering pubs, clubs, hotels, restaurants, convenience stores, amongst many others.

CES Software is a subsidiary company of 3R Telecom Ltd; a software and services company which focuses on the retail, mobile telecoms, payment solutions and digital services markets. It builds on established retail management software products, and uses its senior management team's experience of these industries to launch innovative new services into retail customers.

The ultimate EPoS solution for any industry

Together we can lead our industry to success

CES Software... end users

CES Software... bespoke development

CES Software cares about your business and one of the ways we show this is by offering bespoke software development with our software. All we need to know are your thoughts and what you would like to do with our software and we can help provide appropriate solutions that will help to enhance your business.

One Solution... multiple possibilities

CES Touch boasts multiple functions and versatility. The wide range of modules that can be plugged into the software redefines the meaning of bespoke, making it designed and tailored to you and your business, exactly to your requirements.

- Advanced all in one EPoS software
- Stay in control of your business no matter where you are with remote access
- The most accurate business overview at any point in near real time reporting
- Split bills, table planning, caller ID and many more add-on modules tailored for your industry
- Bespoke screen design ensuring ease of use and rapid operation
- Control access to features and functionality for individual users, or groups of users
- Flexible movement operations on the fly - produce and receive orders, return items, transfer stock between locations, stock checks and adjustments
- Fully configurable business summary reports

CES Touch... key features

3rd Party Links & Integration
We offer a variety of links to industry standard apps that help emphasise the 'all in one' system. This includes hotel links, chip & PIN integration and much more.

Business Analytics
With cloud based intelligence you can make changes to your inventory; run a variety of reports; monitor employee activity from anywhere in the world, at any time.

Ultimate Customisation
Alongside unique screen customisation, CES Touch also has the capability for different modules to be used to create your own bespoke software for your business.

Bookings & Reservations
If you require customers to book or reserve, CES Touch allows you to easily enter details and apply functions such as split bills, charge sheets and table planner.

Support
Constant feedback from our passionate customers is greatly appreciated and is always taken on board. Call or email us anytime or go online to our forum.

Versatility
As we are not tied to specific hardware, we can boast plug and play for a wide range of peripherals and works well with almost any brand of hardware that you prefer.
